SECTION 4 – FIRST AID MEASURES				
General	: Get medical attention if you feel unwell.			
Inhalation	: Not expected to cause symptoms.			
Skin contact	: Remove contaminated clothing. Flush affected skin with water. If irritation persists: seek medical attention/advice.			
Eye contact	: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical advice/attention.			
Ingestion	: Rinse mouth. Do NOT induce vomiting. Get medical advice/attention if you feel unwell.			
Notes for Physician	: Treat symptomatically.			
Signs and symptoms of sl	hort-term (acute) exposure			
Inhalation	: Symptoms may include coughing and irritation.			
Skin	: Symptoms may include redness and itching.			
Eyes	: Direct contact may strongly irritate or burn the eyes. Could cause blindness.			
Ingestion	: Symptoms such as gastric pain, nausea, vomiting, and diarrhea may occur.			

Indication of need for immediate medical attention or special treatment

: In case of accident or ailment, seek medical advice immediately (show label or SDS if possible).

SECTION 5 – FIRE FIGHTING MEASURES

Suitable extinguishing media Unsuitable extinguishing media	Carbon dioxide, dry chemical powder, foam. Water. Contact with water may cause hydration and formation of caustic alkaline material.				
Hazardous combustion products	Calcium oxide, calcium oxalate, vinyl acetate, acetic acid, formic acid, formaldehydes, carbon monoxide, and carbon dioxide.				
Special fire-fighting procedures/eq	Special fire-fighting procedures/equipment				
	Firefighters should wear proper protective equipment and self-contained breathing apparatus with full face piece operated in positive pressure mode. Move containers from fire area if safe to do so. Water spray may be useful in cooling equipment exposed to heat and flame. After fires have been extinguished, carefully clean all equipment and surfaces exposed to fumes.	i			
Environmental precautions	Do not allow material to enter drains or contaminate ground water system.				
Fire hazards/conditions of flammal	lity				

: Not flammable under normal conditions of use.

Flammability classification (OSHA 29 CFR 1910.1200, WHMIS 2015)

: Not flammable.

SECT	TION 6 – ACCIDENTAL RELEASE MEASURES			
Personal precautions	: Restrict access to area until completion of clean-up.			
Protective equipment	 Refer to Section 8 on this Safety Data Sheet, EXPOSURE CONTROLS / PERSONAL PROTECTION, for additional information on acceptable personal protective equipment. 			
Emergency Procedures	: If a spill/release exceeding the EPA reportable quantity is made into the environment, immediately notify the national response center in the United States (phone: 1-800-424-8002). Outside of the U.S. call the emergency number listed in Section 1.			
	US CERCLA Reportable quantity (RQ): None reported.			
Methods and materials for containment and cleaning up				
	: Ventilate area of release. Stop spill or leak at source if safely possible. Contain material, preventing it from entering sewer lines or waterways. Using HEPA vacuum, or other dustless methods, gather up spilled material and place in suitable container for later disposal (see Section 13).			
Prohibited materials	: Avoid adding water, material becomes alkaline when wet.			
Environmental precautions	: Do not allow product to enter drains or waterways. Do not allow material to contaminate ground water system.			
Reference to other sections	: See Section 13 for disposal information.			
	SECTION 7 – HANDLING AND STORAGE			

Special instructions	:	Mixing the product according to the directions in the Technical Data Sheet will not produce measurable levels of airborne respirable crystalline silica, per NIOSH 7500 exposure monitoring.
Safe handling procedures	:	See Section 8 for additional information on Permissible Exposure Levels for individual components and recommendations for Personal Protection Equipment (PPE). Avoid breathing dust. Avoid contact with skin, eyes and clothing. Wash thoroughly after handling.
Storage requirements	:	Store in a cool, dry, well-ventilated area. Store away from heat and open flame. Avoid storing in direct sunlight. Store in original container.
Incompatible materials	:	See Section 10.
Special packaging materials	:	Always keep in containers made of the same materials as the supply container.
